Jacksonville, FL 32254-3227

Norris,

I would like to take this opportunity on behalf of Metal Sales Manufacturing—Jacksonville to thank your company for an excellent business experience.

Due to the fact that the North side of our building is against trees and receives little sunshine, the building needed some help. The work was completed in a timely and budget friendly manner and the complete experience with your company will cause me not to hesitate on calling you again for service.

Please feel free to share my thought concerning your service with anyone who may be interested.

Regards,

A handwritten signature in black ink, appearing to read 'Michael Kidd'.
